### **In the Name of Ahura Mazda**

#### **To Ruling Mullahs in Iran, their supporters and Presidential Candidates**

The addressees of this message and all the hired hands for committing the oppressive and treasonous deeds of the ruling tyrants in Iran, be aware that your actions to this date not only are in path of crime and treason towards People of Iran, but are continuously against all humanity. This is why you will not be able to find even a mouse hole, anywhere in the world to hide in. You, with your evil thoughts and deeds and your ignorance, not only yourself, but your families will also be sacrificed. After the success of the uprising of People of Iran, even prison will not be a safe haven for you, because the prison guards are also aware of your deeds.

At this juncture, People of Iran have such awareness and vigilance that they will no longer listen to your empty promises. Given Iranians kind and forgiving nature, your only solution is to join People and ask for their forgiveness.

Now that you, servant criminals have become candidates for Presidency in Islamic Republic, and have announced your readiness for assisting in continuation of the crimes of the tyrant rulers, have once again proven that are incapable of understanding and lack any degree of intelligence and are unaware of the consequences of the rule of the tyrant Mullahs.

Your candidacy is the stamp of approval on the continuation of treason and crimes of the tyrant Mullahs and their supporters, and puts you in the front row of victims and after the downfall of these tyrant rulers, you together with them will see the consequences of your actions.

The uprising of People of Iran that is at 10:00 AM on June 16<sup>th</sup> 2005, will cleanse Iran and rest of the world from your tyrant existence and Islamic Republic will take their hope of Presidential Election to its grave.

On behalf of the HAKHA Movement for freedom and democracy
